**Dear Sir/Madam,**

Mondi Świecie S.A. (ul. Bydgoska 1, 86-100, Świecie, Poland, hereinafter "Mondi") supplies customers with the following paper grades:

- **ProVantage Frescoflute**

application (German Recommendation XXXVI): direct contact with dry, non-fatty and such foods which are peeled, shelled or washed before consumption and may also be used as secondary packaging. Besides, a contact of corrugated boards manufactured with the fluting in an internal layer with dry, moist and fatty foods is approved, as far as ProVantage Frescoflute is concerned and provided that no direct interaction with the food results from this.

- **ProVantage Kraftliner**

application (German Recommendation XXXVI): direct contact with dry, non-fatty and such foods which are peeled, shelled or washed before consumption and may also be used as secondary packaging. Dry, non-fatty foods with large surfaces may be packed by additionally using an appropriate intermediate packaging. Any further application is to be evaluated separately.

- **ProVantage Kraftliner Aqua**

application (German Recommendation XXXVI): direct contact with dry, non-fatty and such foods which are peeled, shelled or washed before consumption and may also be used as secondary packaging. Dry, non-fatty foods with large surfaces may be packed by additionally using an appropriate intermediate packaging. Any further application is to be evaluated separately.

- **ProVantage Aquaflute**

application (German Recommendation XXXVI): direct contact with dry, non-fatty and such foods which are peeled, shelled or washed before consumption and may also be used as secondary packaging. Besides, a contact of corrugated boards manufactured with the fluting in an internal layer with dry, moist and fatty foods is approved, as far as ProVantage Aquaflute is concerned and provided that no direct interaction with the food results from this.

- **ProVantage KraftTop Liner X**

application (German Recommendation XXXVI): direct contact with dry, non-fatty and such foods which are peeled, shelled or washed before consumption and may also be used as secondary packaging. Dry, non-fatty foods with large surfaces may be packed by additionally using an appropriate intermediate packaging. Any further application is to be evaluated separately.

- **EcoVantage Kraft X**

application (German Recommendation XXXVI): direct contact with dry, non-fatty and such foods which are peeled, shelled or washed before consumption and may also be used as secondary packaging. Moreover, a contact with fatty foods is approved, provided that a transfer of aromatic hydrocarbons is not detectable for the respective application.

Please find statements regarding your inquiry below.

- **Regulation (EC) 1935/2004** - on materials and articles intended to come into contact with food.

Due to missing European legal documents (specific measure) for paper and board based food contact materials, the compliance of the paper grades listed above is given by fulfilling the requirements of the German Recommendation XXXVI for the listed applications.

- **German Recommendation XXXVI** - on paper and board for food contact (BfR)

The paper grades listed above may be used safely for the above listed applications.

- **Council of Europe Resolution CM/Res (2020)/ "Paper and board used in food contact materials and articles" incl Technical Guide**
