Dear Sir/Madam,

Mondi Richards Bay produces white top kraftliner "ProVantage Baywhite", which is a pure (100%) virgin fiber based paper quality.

"ProVantage Baywhite" comply under foreseeable conditions of use with to Reg (EC) 2023/2006 "on good manufacturing practices (GMP) for materials and articles intended to come into contact with food" and with Reg (EC) 1935/2004 "on materials and articles intended to come into contact with food". Reg (EC) 1935/2004 is a framework regulation which does not set specific requirements for paper and board materials.

In the absence of specific requirements the compliance with Reg (EC) 1935/2004 is given by fulfilling the requirements of the Italian food contact legislation Decreto Ministeriale del 21/03/1973 as confirmed for "ProVantage Baywhite" by tests at the external laboratory. Enclosed please see the SSCCP certificate of conformity for ProVantage Baywhite dated 4th March 2024.

Based on our best knowledge and based on external tests "ProVantage Baywhite" may come into direct contact with foodstuff up to 90°C limited to dry and fatty food.

Disclaimer

This statement should not be considered as a warranty of product fitness to any specific application or purpose and does not replace necessary testing of final packaging. Mondi does not take any liability for final packaging produced from our products. It is the end user's responsibility to ensure that final packaging produced from this product fulfills all legislative requirements for its intended application.

This statement is issued on 08-01-2025 and is valid until 07-01-2026 or good till cancelled.

Yours sincerely,
Serhiy Luzan
